As of June 14th 2019, ALL NM Bred owners must be active members of the New Mexico Horse Breeders' Association in order to receive their incentive checks. In the case of partnerships, as long as the representative of said partnership is a member, this will suffice in covering the partnership. Failure to complete and return a paid membership application within 90 days of your 1st, 2nd or 3rd place finish will result in forfeiting the NM Bred incentive award paid out in November for that race. The membership form will be linked below.

NM broodmare deadline is fast approaching!

Don't forget!

September 1st is the deadline to get your broodmares registered with the NMHBA. The paid application must be in the office or post marked by Sep. 1st in order to register the resulting foal without penalty. If you are unsure of your mares status, please call the office at 505-262-0224 and we can check for you.

IMPORTANT!

Please Note:

We are receiving many NM Bred Applications (Form 100 / 100A) that are incomplete or filled out incorrectly. In order for us to accept an application and register a horse, **ALL** fields must be filled out in their entirety. Leaving sections of the form blank or filling in with N/A is not acceptable answer. If you are unsure of any of the information, please find out. To avoid any delays in registering your horse please ensure everything is done correctly and all forms are completely filled out. Once we have a paid application on file your papers **MUST** be stamped by the office in order to be an accredited NM bred, TB foals of 18' on are now digitally stamped. Horses will not be assigned a number without information on the application and papers being verified for accuracy. The NM Bred applications have been attached further down the newsletter.

If you do not see our NM Bred stamp either embossed on your QH papers or digitally stamped on the TB papers, please call the office and we can get it sorted out. **Remember they are not a NM Bred until they have been stamped and assigned a registration number.**

The NMHBA Trustees voted to amend the timeframe that an owner has to provide the Association with the forms for Broodmares in Foal to Leave the State of New Mexico. Beginning with the 2019 breeding season the form and the fee will be due on October 1 of the year bred. The form must be postmarked or received in our office by that date (October 1) or the \$2000 penalty will be assessed to make the resulting foal eligible to be a NM bred.

The Trustees also voted to eliminate the Broodmares in foal returning to the state of New Mexico form, as our form to register a NM bred foal, details all locations the mares were kept prior to foaling. We will still be sending affidavits to the farms that receive the mares to foal out, and may visit farms to confirm the mare and/or foal are on the premises. Failure to return the mare to foal in New Mexico will result in the foal NOT being registered as a New Mexico bred and that foal will NOT be eligible for the New Mexico bred program. NO refund of fees will be made.

These changes were made to allow the owners of the mares going out of state during their pregnancy, to have their mares confirmed in foal before the member pays the fees.

Your mare must still be registered with the association by September 1st of the breeding year.

PLEASE NOTE: A NM Bred Colt or Filly does not automatically go into the Broodmare and Stallion Registries. Please refer to the website or call the office for questions on this.

because a filly or colt was an accredited NM Bred foal, this does **NOT** automatically make it a NM Broodmare or NM Stallion. These are separate registries. In order to register a NM Bred foal without penalty, the broodmare must have been registered with us no later than September 1st of the breeding year. Likewise the sire of a foal must be entered into the Stallion registry **BEFORE** breeding. If a stallion leaves the state of NM, he will be marked inactive and must be reactivated for a \$200 fee if he returns to New Mexico to breed. The stallion must be active and standing in New Mexico at the time of conception. You may always call the office to check on the status of Stallions and Broodmares
